

CONSTELLATIONS IN A GIFT OF STARS

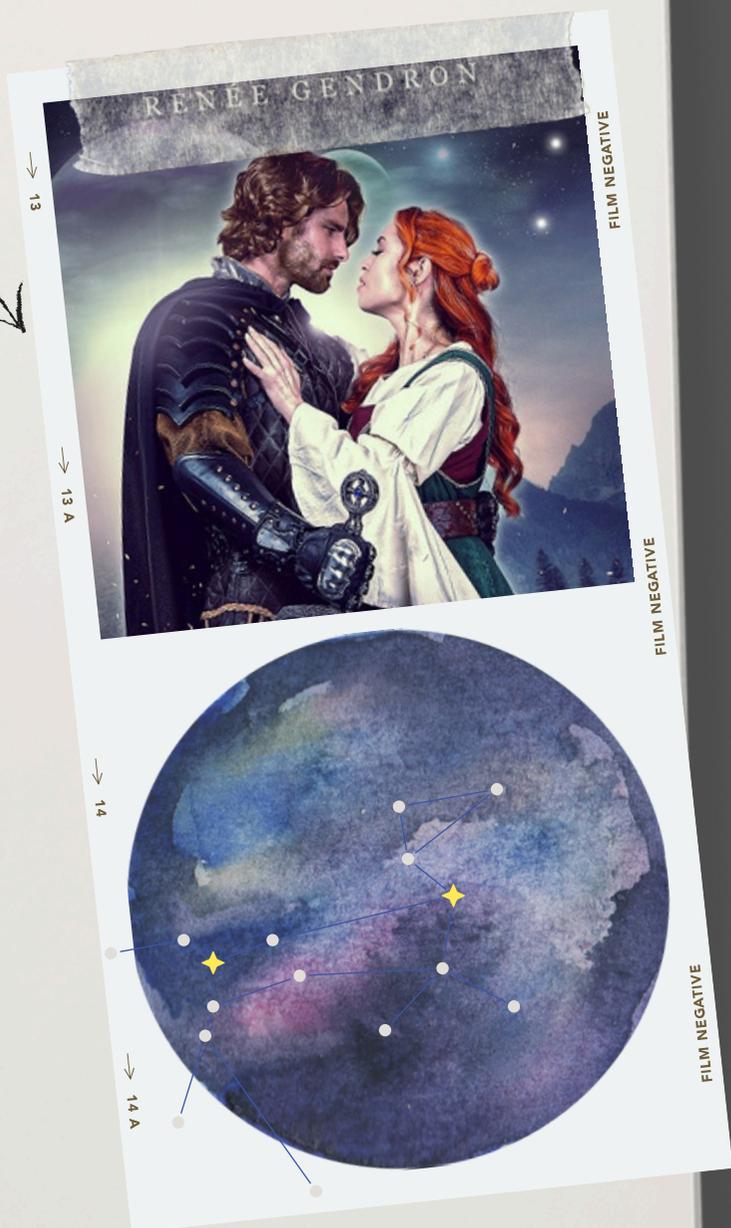

*Constellations play an important role in the Nearer
Realm Tales ~ they are one of the ways the
universe keeps time*

The Osprey is best seen in the winter months when it flies high in the night sky.

It represents intelligence, abundance, and freedom. When it's at its largest, it's a sign that spring is a few weeks away.

It is represented by 13 stars of which 8 are its wingspan, 2 are its eyes, 1 beak, and 2 for its legs tucked under it.

A GIFT OF STARS

The horse is noble, loyal, and social

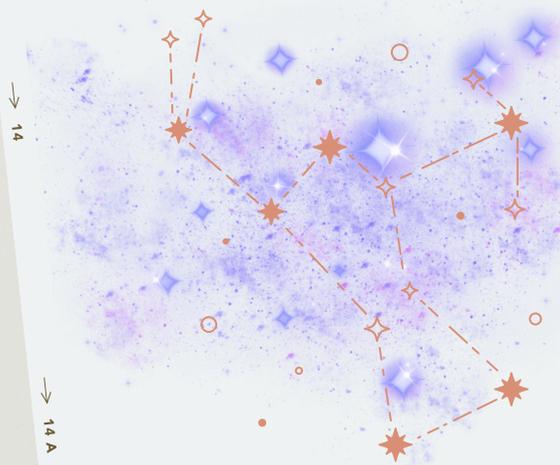

The Horse finds strength in its herd. In times of uncertainty, it may trample those around them in panic.

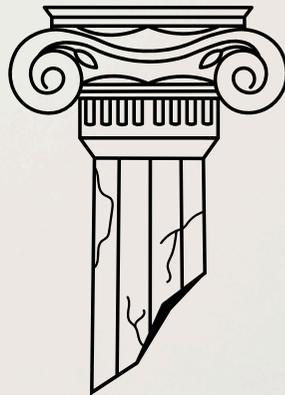

The Horse is strong and agile, and when aligned with other constellations, it can accelerate the completion of projects.

When it is not aligned, achieving goals becomes more difficult

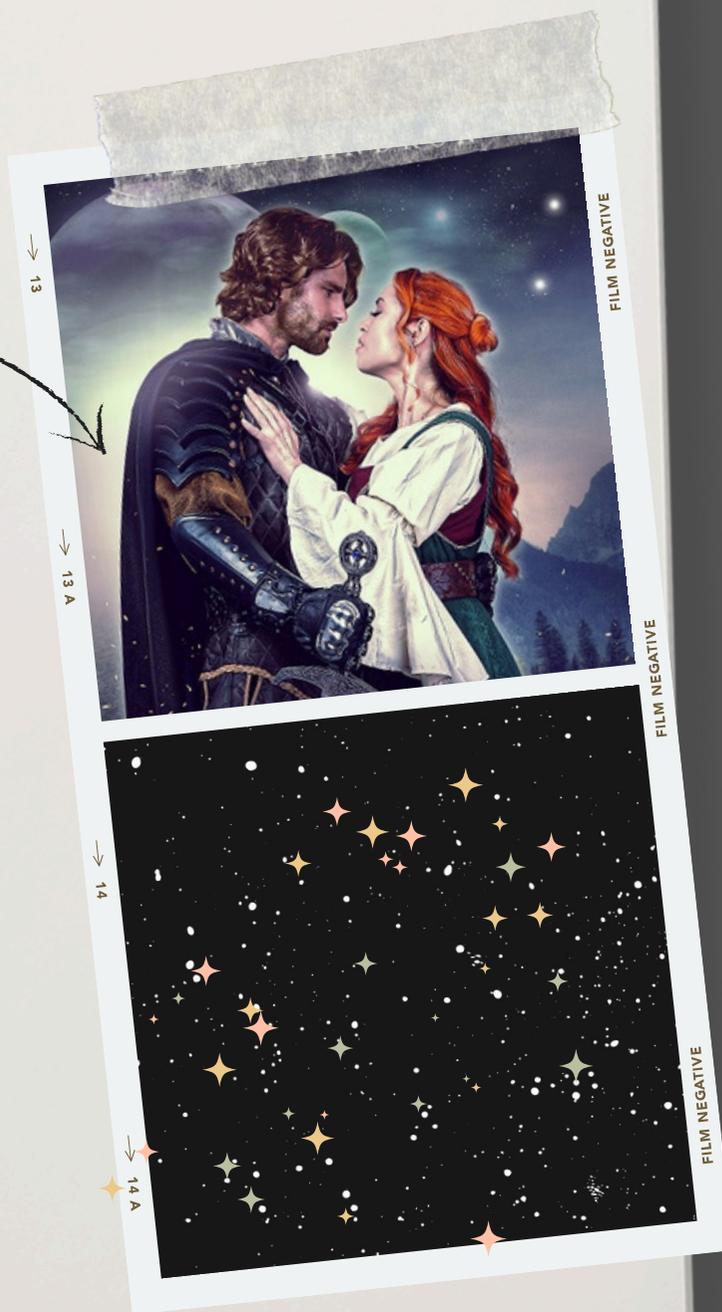

It has 10 stars of which 4 form the body, 4 the legs, 1 the tail and 1 the tip of its nose.

A GIFT OF STARS

The Seahorse has seven stars in the shape of a 7

The Seahorse represents patience and wisdom. All things happen in their own time, and the Seahorse is not to be hurried.

The seahorse provides balance with the Osprey and Horse who prefer speed.

The Seahorse acts with fluidity and grace, reducing tension in turbulent times.
